MANUFACTURER'S REPRESENTATIVE

LINE SHEET

NOVEMBER 2011

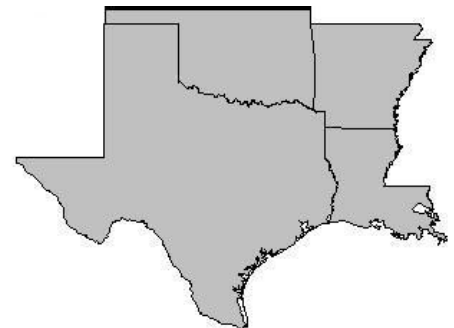

## LINES REPRESENTED

ONCAM

Advanced Biometric Solutions

TK *group* Territory

*"TK Group Associates have 60+ collective years experience in Security Systems Design and Implementation."*

**Acuity** Leading provider of enterprise IP security products and solutions. Products include Video Management Systems, DVR's, IP Cameras, Encoders/Decoders, Asset Management providing solutions for Homeland Security, Military, Education, Government, Law Enforcement, Healthcare, Retail, Financial, Industrial, Utilities, Hospitality and Transportation.

**Aimetis** Software—Video Management Systems, Analytics. Enterprise level to one camera. Software tied to MAC address of server, not camera. License plate recognition. Small form factor four and eight camera appliance.

**BetaFence** Welded Mesh Fencing. Meets Tier 1 thru 5 CFATS Requirement.

**Clear Site** Wireless Mesh Network Systems—Point to Point and/or Multi-Point—Self Healing.

**DataDirect Networks** DataDirect Networks (DDN) has partnered with several VMS application providers to offer a state of the art, highly-scalable video surveillance solution that is purpose-built for large installations that require high recording capacity and large storage volumes. This solution integrates a chosen VMS vendor with DDN's SFA10000E virtualized storage platform. Using next-generation in-storage processing capability, the DDN SFA10000E has the ability to host any VMS software natively on DDN's virtualization appliance.

**Fiber SenSys** Exterior Intrusion Detection Systems for Fences, Fiber based. Level 1 Network Protection --Detects activity/tampering with Networks from a physical standpoint. Long range pipeline detection now available.

**FutureSentry** Manufacturing of outdoor perimeter detection solutions developed on the idea that intelligent technologies can prevent and deter potentially criminal activity before loss or damage occurs.

**International Fiber Systems (IFS)** Fiber Optics Modems for Video, Data, Audio. UTP Application modems. Powered Receivers will interface with other UTP Transmitters on the market. ALL IFS Equipment carries a LIFETIME WARRANTY. Network Media Convertor, Layer 2+ managed switches, Ethernet to coax modems.

**IPX** Onvif Compliant IP Cameras, D1 and Mega Pixel.

**Moog** A worldwide designer, manufacturer, and integrator of precision motion control products and systems. Moog's high-performance systems control military and commercial aircraft, satellites and space vehicles, launch vehicles, missiles, industrial machinery, wind energy, marine applications, and medical equipment.

**OnCam** Oncam Global can architect a total security solution that is effective in providing liability and fraud protection: The cornerstone of any solution is the surveillance system, the "eyes" providing persistence situational awareness, Oncam cameras are covert, quiet and work well in low-lux environments, Retrospective viewing can prove/disprove claims. Quality of video is so clear that it is often admissible in court Facial recognition programs, RFID tagging, and other systems aid in the authorization of employees to gain entry and protection of assets

**SafeGuard** Armored Products including armored vehicles and bullet resistant glass products. Personnel products that include Value Assessments and Background Checks.

**ZK Software** Manufacturer and distributor of fingerprint biometric readers for Access Control and Time & Attendance applications providing range of technology capabilities. Z4's one touch biometrics reduces the complexity of integrating biometrics into existing applications, infrastructures and backend systems.

*TK Group is a "Solutions Driven" company. We will help design the proper Solution for the defined requirements with an experienced sales staff that can help in defining Security System Parameters and configuring the Electronic Solution.*
